

This is an introduction to the shell scheme package plan available for use at exhibitions organized by TSO International Inc. Standard booths are provided as space only, meaning partitions must be set up between adjacent booths. You can either prepare your own decorations or make use of the shell scheme packages provided by the show management office.

We also offer consultation for decoration and layout plans tailored to your products and budget, based on the shell scheme package. Please feel free to contact the show management office for inquiries.

* This applies to exhibitions starting in 2026.

Plans, specifications, and prices may be subject to change. Thank you for your understanding.

Plan A [1-4 Booths] Booth size per unit : W3m × D2.7m

A simple package design that includes the essential elements required for a standard exhibition booth

Plan A Contents

- Wall Panel (H2,700mm)
- Parapet
- Company Name Board (W2,400mm×H400mm)
- Carpet
- 100V Outlet (2 ports)×1
- Electricity Supply (up to 1,000W, includes power usage fee)
- * Please select the colors for the company name board, wall panels, and carpet from the color samples on P7.
- * Furnishings like reception counters, chairs, and meeting sets are available as optional paid add-ons.
- * For booths with 2 or more spaces, only one company name board and outlet will be provided.
- * Exhibitors are free to bring their own furnishings.

Plan B [1-4 Booths] Booth size per unit : W3m × D2.7m

A package that allows you to showcase your original company name board prominently, creating a unique decorative feel

Plan B Contents

- Wall Panel (H2,700mm)
 - Company Name Board
(Complete Data Submission: Data Size: W1,940mm × H500mm)
 - Carpet
 - 100V Outlet (2 ports) × 1
 - Electricity Supply (up to 1,000W, includes power usage fee)
- *Please select the colors for the company name board, wall panels, and carpet from the color samples on P7.
 - *Furnishings like reception counters, chairs, and meeting sets are available as optional paid add-ons.
 - *For booths with 2 or more spaces, only one company name board and outlet will be provided.
 - *Exhibitors are free to bring their own furnishings.
[Optional] Additional company name board for corner booths: JPY 38,500 per board.

[About Data Submission]

File Format: Adobe Illustrator is recommended. EPS files with outlined fonts are also acceptable.

Image Resolution: For graphics with photos, ensure a minimum resolution of 75 dpi at the actual size. Use the highest possible image quality.

Filters and Effects: For data with drop shadows or blur effects in Illustrator, submission at the actual size is recommended to prevent errors caused by scaling.

PDF Proof: Always include a PDF proof for review.

*If you require design creation, additional design fees will apply. Estimates will be provided based on the design requirements.

Plan B Pricing (Including Tax)

- 1 Booth : JPY 192,500
- 2 Booths : JPY 258,500
- 3 Booths : JPY 324,500
- 4 Booths : JPY 390,500

*If you wish to choose two or three colors for the wall panels or carpet, or if you prefer colors other than those listed above, a separate estimate will be provided.

Due to printing limitations, the color samples above may differ from the actual colors. Also, depending on the availability of materials, the texture, material, or color may vary. Please be aware of this in advance.

About Shell Scheme Package

Regarding Wall Panels

For Plans A, B, C and E, the walls are made of approximately 3mm plywood with color sheets applied. Since pushpins or nails can penetrate and protrude into adjacent booths, their use is prohibited. The wall panels are made of recycled and reused materials, so please refrain from creating holes, leaving glue residue, or causing any damage.

Velcro (double-sided tape) is available for free at the contractor's counter at the venue, so please use it to display posters and similar items.

For hanging panels, use an aluminum frame and attach them with S-tube chains. S-tube chains are distributed at the venue contractor's counter (to be returned after the exhibition). We can assist with the installation, so please feel free to consult us.

Q : Can I change the wall panel or carpet colors to anything other than the standard colors?

A : Yes, it is possible for an additional charge.

Prices vary depending on the color or pattern, so please contact us for details.

Q : Can I reduce the number of walls or remove the carpet in the shell scheme package?

A : Yes, you can remove unnecessary items. However, since these items are part of the package, removing them does not reduce the price. Depending on the booth decoration, it may be more cost-effective to order only the necessary panels or displays instead of using the rental shell scheme package. Feel free to contact us for advice.

Q : Are there any regulations on setbacks?

A : There are no setback regulations. Please proceed with the installation according to the decoration regulations.

Q : Are there any specifications for the materials used in booth decorations?

A : There are no specific materials required for wood, cloth, etc., but you must use fire-retardant materials and display fire-retardant labels.

<Fire-retardant Label>

Q : Can I delegate the booth design to contractor?

A : Yes, we accept this.

We will inquire about the number of booths, products to be displayed, what you plan to do in the booth (demonstrations, tastings, negotiations, surveys, etc.), your desired image (color and atmosphere), and your budget to propose a design. Since the installation will be carried out by a trusted contractor designated by the show management office, who will be on-site during the exhibition, you can leave it to us with peace of mind.

Q : Are there height restrictions?

A : Exhibitors with 1 to 5 booths are limited to 3.6m in height, and exhibitors with 6 or more booths are limited to 5.4m in height.

*This height limit applies to decorations, not the exhibited products.

*If the height of the exhibited products or decorations exceeds 3.6m (5.4m for 6 or more booths), prior confirmation with the venue is required.

Some areas of the exhibition venue may have lower ceilings.

Be sure to check the ceiling height of your exhibition space before planning your decoration or installation.

Decorations and exhibited products must be within the height limit for lower ceiling sections.

For detailed information, please check the decoration guidelines in the Exhibitor's Manual.

*As of November 2025. Decoration regulations may change based on the exhibition or venue requirements.

Be sure to check the latest regulations.
